

ICAO

Fundamentals of Security Culture: ICAO E-learning Training Package

2–3 hours e-Learning

Course Overview

This interactive ***Fundamentals of Security Culture*** e-learning training package provides users with a comprehensive understanding of security culture and its importance in an aviation environment.

The e-learning training takes approximately 2-3 hours to complete, with users receiving an ICAO certificate upon successful completion of the training. There is no cost or fees involved.

Who Should Attend

The e-learning training is available in different modules for **non-security staff** (e.g., cleaners, retail assistants and taxi drivers), **security staff**, and **senior managers**.

The e-learning training is suitable for personnel working for Appropriate Authorities, Airport Operators, Aircraft Operators, Regulated Cargo Agents, Regulated In-flight Suppliers, Customs Agencies, Border Control Agencies and Law Enforcement Agencies.

E-learning Objectives

- Educating staff on improving their security performance
- Encouraging good security practices and knowing what to do when incorrect practices are observed
- Understanding the wider benefits of a positive security culture in aviation
- Appreciating how to build and maintain a secure airport environment

Key Topics/Modules

- Understanding security culture
- Making security matter
- Getting involved

Prerequisites and further information

There are no prerequisites for this course.

Further information on security culture can be found on the ICAO Security Culture website at: www.icao.int/Security/Security-Culture/Pages/default.aspx

How to apply
